### Introduction

Safety First Group Ltd are Occupational Hygiene, Legionella Control and Health & Safety specialists based in Newcastle-under-Lyme, Staffordshire. Everything we do is driven by our belief that safety always comes first. Our ethos is to provide a first-class service to our customer base, allowing them the peace of mind that all aspects of their compliance responsibilities are taken care of and up to date.

### The Opportunity

We have an exciting opportunity for an enthusiastic and dedicated person to join our growing and forward-thinking team. This permanent position would be suitable for someone who is looking to begin their career in the Water Hygiene Field. While no experience is required, previous knowledge of the role would be advantageous. A can-do attitude, an analytical mind and a desire to succeed are essential. All professional training will be provided.

### Objectives

In this position you will work within the Water Hygiene Team undertaking Legionella Compliance Monitoring, on client's premises nationally/internationally. You will provide efficient and professional Water Hygiene services and reports to Safety First Group's client base and assist in the continued development of the Company through an enthusiastic and proactive approach to working relationships with both client representatives and company colleagues.

### Requirements

Successful candidates for this job require the following:

- A full UK Driver's License, clean license is preferred.
- Willingness to travel around the UK & Europe with overnight stays.

### **Essential Skills and Attributes**

- Keen and flexible to undertake substantial travel and able to commit to regular overnight stays across the UK and Internationally (fully expensed).
- Have good timekeeping skills with the ability to manage their workload and work to deadlines.
- Excellent attention to detail.
- Self-motivated, enthusiastic individual with a high standard of personal performance.
- Proficient in using IT including Excel, Microsoft Office, Word.
- Good communication and report writing skills with the ability to present information clearly, concisely, and professionally.
- Ability to organise and prioritise workload, particularly with regard to report writing.
- Flexible and reliable and great organisational skills.
- Ability to be both a team player and work autonomously.

### **Job Description:**

- Undertaking all legionella compliance monitoring & water hygiene services at the company's client's premises nationally/internationally.
- You will be required to work between home & the office to complete reports, organise equipment, manage data, attend team meetings, and collect/drop off equipment and paperwork.
- To provide our clients with clear, informative, and detailed reports within 10 working days where possible.
- To undertake and pass regular BOHS & WM Society courses to improve your legionella compliance skills & knowledge.
- To read standards, old and new and ensure that your knowledge of Water Hygiene is kept up to date.
- To read and understand new directives and procedures that are introduced.
- Keep your vehicle clean and tidy and in a road worthy state.
- To report directly to the Water Hygiene Manager.

### **Training to be provided:**

- Legionella Awareness Training
- Health & Safety Awareness Training
- British Occupational Hygiene Society (BOHS) training courses

### **Benefits**

- Competitive salary
- Performance related salary increases
- Training and development opportunities (BOHS training)
- Use of a Company van or vehicle and fuel card provided
- Flexible working (hybrid)

- Pension scheme (applicable for age 22 and over and if meet earnings requirement)
- 20 days holiday (plus bank holidays)
- Increased holiday entitlement with longevity
- Overtime available at an enhanced pay rate
- Professional body membership fees paid
- Referral scheme
- Smartphone & Tablet
- Annual Health Surveillance with an Occupational Health Nurse
- Free Parking at work head office
- Workforce social events
